

President's Message

MTS Sets A New Trajectory

The MTS 2026–2031 Strategic Plan shows a renewed commitment to strengthening its organizational foundation, deepening support for members, and advancing leadership within Manitoba's public education system.

The plan sets a clear, coordinated path using the mission and values to foster a thriving organization. Over the next five years, the 3 focus areas are:

1. Building Trust, Culture, and Capacity
2. Strengthening Member-Centred Support
3. Enhancing Governance, Operations, and Sustainability

Click here to **READ**.

Ground breaking work for equity-deserving groups (New – Members with Disabilities), changes to By-Laws and a new round of bargaining will be guided by the plan. The ITA sets a new plan in 2026 as well, aligning with that of the Society while holding OUR ITA Members at the centre of all we do.

Holiday Poem to YOU!

T'was the week before Holidays,
and all through the schools,
not a teacher was sighing,
due to inclement weather rules.

But we know how much work,
you have been tasked with this year,
so may you soon be at home,
with a reset so very near.

A friendly reminder,
from your ITA,
leave your school bag at work,
because it will just be in the way.

Your job is to rest,
read, play and snore.
enjoy snacks and family,
as you deserve all the more.

Be kind to yourself,
under blankets please bury.
As we hope for you a break,
that is long, peaceful, and Merry!

From your ITA executive, thank you for all you do; leave the work until the New Year; take time for you and yours, as being the whole world to your students takes being a whole you! May your holiday be exactly what you need it to be. We are here when you need, stay safe and be well, and Happy New Year!
